A TYPE COLLECTION OF CROWNS

The crowns in this consignment are individually mounted in **custom made and professionally hand lettered holders** measuring 3½" x 3⅞". Each coin appears set in a rectangular black board covered by a heavy stiff plastic, the whole surrounded by a broad tan frame neatly edged with black. **The general effect is very handsome** and would look most impressive in a display.

To illustrate the most interesting pieces from the consignment would have required the substantial destruction of the mountings. For this reason none of the significant pieces are shown on our plates with two exceptions.

While many of the Crowns in this consignment are quite mediocre, there are several of the highest quality and rarity. We would like to call your attention particularly to **Lots 741, Albania; 760, Greece; 768, Monaco; 769, Montenegro; 794 Paraguay; 797, San Salvador; 805, German East Africa; 808, Sierra Leone 1791; 810, Zanzibar; 812, Cambodia; 819, Korea; and 825, German New Guinea. All these pieces have been conservatively graded.**

SPANISH TREASURE COINS

CONSIGNMENT FLORIDA

The consignment consists of a group of the gold and silver coins from the 1715 Spanish Treasure Fleet wrecked on the Florida coast by the great hurricane of July 31, 1715. All these coins are technically Uncirculated, but they have been crudely struck. Some, of course, are nicer looking than others. Conventional grading terms have been avoided as meaningless. The Consignor is quite impressed with the importance of a date, or a part of one. This preoccupation is reflected in the estimated prices.
